

SELECT[®] High Efficiency

High-Efficiency Residential Electric Water Heaters

Higher Energy Factor of .93, meets efficiency requirements for most electric utility rebate programs – Thick CFC-free foam insulation, heat trap nipples and other features yield performance that meets Energy Star Home Program recommendations.

Diffuser Dip Tube – Helps reduce lime and sediment buildup, maximizes hot water output. Made of State PEXAN,[™] a cross-linked PEX polymer that can withstand long-term exposure to water temperatures up to 400°F.

Glasslined Tank – For long-lasting protection against rust and corrosion.

Aluminum Anode Rod – Helps protect against corrosion for longer life.

CSA/ASME Certified Side-Mounted T&P Relief Valve – Top-Mounted T&P Relief Valve available as an option on select models.

Durable Tamper-Resistant Brass Drain Valve

6-Year Limited Tank and Parts Warranty

Code Compliance - meets federal minimum energy standards according to the current edition of the National Appliance Energy Conservation Act (NAECA). Also complies with ASHRAE 90.1-2004 and current editions of ICC Codes and HUD Standards.

Upgrade Tank Warranty to 10 Years – See details on page 2.
