

# THE BEST JUST GOT BIGGER

Introducing the Ultra Force™ XL

From the No. 1 specified water heater family, Ultra Force™ is built to power the largest commercial applications packed into a compact footprint.

## Key Specs

**BTU/HOUR INPUTS** 750,000 | 1,000,000

**GALLON CAPACITY** 120

**LIMITED TANK WARRANTY** 5 years

33-<sup>1</sup>/<sub>8</sub>"

**SAME 33-1/8" DIAMETER**  
AS SUF-300, -400 AND -500 MODELS

### Unique Stainless Steel Heat Exchanger Design (Patent Pending)

- Combines the toughness of stainless steel and the durability of our patented glass-lining protection
- Stainless steel primary and secondary heat exchange system promotes higher thermal efficiency and longer life
- Exterior glass-lined primary heat exchanger and powered anodes provide corrosion resistance
- PermaGlas® glass-lined, ASME-certified tank

### Easy to Install

- Same diameter as 500K BTU/h Ultra Force unit
- No "factory start-up" process needed
- Easy-to-remove top cover for access

### Highly Efficient Performance

- Intelligent Demand Response automatically adjusts the differential set point to increase hot water during large demand periods
- ENERGY STAR® qualified with 97% thermal efficiency

**iCOMM™ Connectivity with WiFi and Remote Monitoring**
